Lecture and Workshop in Galway

by *Kathleen Newburn*

As we witness the events unfolding on our planet, we know the future stands in the balance. We are entering a time long foretold in the prophetic writings of the world, when great changes are due to occur and enlightened teachers will again come forward. Humanity is fast approaching the threshold of a great spiritual and cultural transformation--unprecedented in the history of life on Earth.

Kathy Newburn works in the US, Europe and South America teaching and lecturing to bring the Ageless Wisdom to wider public attention. Kathy worked for many years at both the Lucis Trust and the Seventh Ray Institute in New York and has been studying astrology since 1978. She is the author of *A Planetary Awakening: Reflections on the Writings of the Tibetan in the Works of Alice A. Bailey* and is presently compiling and editing a book on esoteric astrology for Niklas Nihlen of Sweden. Kathy lives in New York. Kathy is currently on the faculty of the DK Academy and Sacred Planet.

There is a lot of talk about the importance of 2012, but because of certain powerful planetary alignments 2010 may also prove a pivotal year, serving as a catalyst for change and transformation. Yet we also know that outer events are symbols of fundamental changes occurring within consciousness, preparing us as we move through the portal of the Aquarian Age.

This talk will explore the coming dynamic as well as the overall opportunities standing collectively before humanity from now until 2025, when major decisions will be made determining the future of our planet. It is a time of awakening and great opportunity for humanity.

Title: **Esoteric Astrology & The Seven Rays**
The oldest and greatest of sciences - *Kathleen Newburn*

Join us for a one-day seminar to explore the infinite nature of the cosmos and ourselves. Esoteric astrology is a profound path of spiritual development that awakens the intuition and fosters creativity. The seven rays, cosmic streams of energy that color and condition all life forms, are an essential aspect of this developing astrology. All of life is permeated with the colours and sounds of the rays and constellations. Together we will explore the synthetic beauty that unites all things in a cosmic dance of wonder.

In this seminar we will explore:

- the spiritual qualities of the zodiacal signs & their meaning for our life and service work
- an introduction to the key qualities of the seven rays using examples of historical people who embody the different ray qualities
- how to work creatively with subtle energy and the cycles of nature to help heal the planet
- Raja yoga meditation/visualization techniques for integrating soul and personality

This workshop is based on the work of Tibetan teacher Djwhal Khul, who wrote 20 volumes of esoteric teachings with Alice Bailey. The class is experiential, using mental exercises, visualization, meditation and ritual as well as formal study. No previous knowledge of astrology necessary.

Cost: €50-00 - please bring your lunch
